Congratulations on being selected to perform at the 2023 CMEA Conference / Clinic. I'm sure everyone understands the great honor bestowed on you, your school and your program.

We are writing to inform you about our group order program that will make purchasing your CMEA performance more affordable than if purchasing these products individually.

The program is simple; **\$20 PER STUDENT, Thats it!!!** Each student will receive a thumb drive with HD video files and MP3 audio files that they can sync with their devices, watch on XBOX or Playstation and even some BluRay players and SmartTV's with USB ports can play these thumb drives.

Group ordering is available through this mailing and our website, [box5store.com](http://box5store.com). If your students or parents purchase this product through our website on their own or at the event they will pay \$50 for the same product. Thats a savings of \$30 for each of your families that decide to order.

### **THE RULES**

- The order must be shipped to the school.
- Every student in your performing ensemble must receive a thumb drive.
- There is a minimum fee of \$300 per performing ensemble (15 units), each additional unit is \$20ea.

6-8 weeks after your performance your thumb drives will arrive at your school allowing you to hand them out during class.

Thank you for your dedication to providing the young people in your school a quality music education and fantastic performance opportunity.

Sincerely,

**Tim Snyder**  
President
